Address: Road 09, Block F, Bashundhara R/A, Dhaka-1229, Bangladesh

Career Objective

Dedicated Computer Science and Engineering student with a strong interest in data analytics. Aspiring to build a career in a professional organization where I can apply my programming, problem-solving, and analytical skills to interpret data for meaningful insights, and contribute to business and technical decision-making through teamwork and continuous learning.

Education

•**Bachelor of Science in Computer Science and Engineering** *Expected 2027*
East West University, Dhaka, Bangladesh CGPA: 2.90
•**Relevant Coursework:** Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Software Engineering, Statistics, Machine Learning

Technical Skills and Interests

Programming: Python, Java, Ruby, Object-Oriented Programming (OOP)
Database & Development: SQL, MS SQL Server, Oracle APEX, Oracle PL/SQL
Data Analysis & Visualization: Pandas, NumPy, Matplotlib, Seaborn, Statistics, Exploratory Data Analysis (EDA), Data Cleaning, Data Visualization
BI & Reporting: Advanced Excel, PowerBI
Tools: Git, GitHub, VS Code
Areas of Interest: Data Analytics ,Web Application Development

Personal Projects

•**Telecom Churn Decision Framework – Machine Learning Project**
A decision-oriented telecom churn prediction framework using class-imbalance handling, threshold optimization, and explainable AI.

- Evaluated 5 ML models × 4 imbalance strategies with stratified 5-fold cross-validation and Average Precision.
- Built a leakage-safe pipeline with hyperparameter tuning, OOF prediction, threshold analysis, and FN/FP decision-cost evaluation.
- Selected XGBoost + 0.18 threshold, improving recall from 53.2% to 86.1% and reducing false negatives from 175 to 52.
- Technology Used: Python, Scikit-learn, XGBoost, LightGBM, SHAP, Pandas, Git, GitHub.

•**TaskHub – Pure Ruby CLI Application**
A terminal-based task management application with persistent JSON data storage.

- Implemented full CRUD operations to manage daily tasks seamlessly via command-line interface.
- Integrated file I/O and JSON parsing to auto-save and restore application state persistently across sessions.
- Designed using Object-Oriented Programming (OOP) principles separating data modeling, task management logic
- Technology Used: Ruby, JSON, Git, GitHub.

Leadership & Activities

•**General Member** Cyber Security Club, East West University *Aug 2023-Present*
- Participated in 3 club-organized cybersecurity training sessions to strengthen practical knowledge and technical awareness.

•**Event Volunteer** Cyber Security Club, East West University *Aug 2025*
- Assisted in managing and coordinating around 70 participants during a club event, supporting smooth event operations and participant handling.

•**Organizer** School Football Tournament Organizing Committee *Sep 2021-Present*
- Supported the organization and coordination of a school football tournament involving around 200 students, helping manage participants and event activities.

Certifications & Courses

- **Python for Everybody** University of Michigan Certificate — *Aug 2023*
- **The SQL Programming Essentials Immersive Training** Udemy Certificate — *Sep 2026*
- **Introduction to SQL** DataCamp Certificate — *Jun 2025*
- **Intermediate SQL** DataCamp Certificate — *Jun 2025*
- **Joining Data in SQL** DataCamp Certificate — *Jul 2025*
- **Data Manipulation in SQL** DataCamp Certificate — *Aug 2025*
- **Data Cleaning** Kaggle Certificate — *Aug 2023*
- **MS Excel Beginner to Advanced** Grameenphone Academy Certificate — *May 2024*

Language Proficiency

Bengali: Native
English: Fluent

Interests & Hobbies

Bike Riding, Cricket, Playing Cards, Travelling
